Picket Lines Threatened In Meat Tieup

Full-scale picketing of Peninsula meat stores after Sept. 3 was threatened Monday by Milton Maxwell, head of the butcher's union after a federal conciliator recessed negotiations in San Mateo until yesterday at 10:30 a.m.

Maxwell charged dealers with "stalling" and "not honestly negotiating" after he had been left to cool his heels in the lobby of the Benjamin Franklin Hotel while dealers held a private caucus during most of yesterday's four-hour sessions.

In reply to Maxwell the following statement was made Tuesday by Earl Schmidt, secretary of the Peninsula Retail Meat Dealers' Assn.

"Mr. Maxwell makes himself look ridiculous when he charges dealers are stalling. We have agreed to every demand made upon us by the union with the single exception that we cannot accept his dictate concerning our work-week. Monday we asked Maxwell if he would submit our proposal to Local 516 for a vote of the members. His reply was, 'You run your affairs and let me run mine.' Again we asked him to allow the markets to reopen pending settlement and again he flatly refused."

Maxwell confirmed that dealers had proposed that half the butcher's crew work Monday through Friday, the other half Tuesday through Saturday, thus giving all butchers two successive days off. But he called it "the same old split-week proposition," and said the union would not accept it.

License Crackdown Delay in S.C. Seen

The follow through of the San Carlos City Council crackdown on out-of-town real estate operators who have failed to comply with a city ordinance requiring payment of a $25 business license fee by persons doing business in San Carlos probably will not be forthcoming this week, according to City Atty. Carl W. Anderson.

Anderson has said that he expects to be tied up with other business during this week.

The first move by the city attorney's office will be issuance of a letter to all violators of the ordinance warning them of the consequences if they continue their defiance, Anderson said.

"It is the policy of my office to give people time to comply with the law before we take final action," he said.

San Carlos City Clerk Beatrice Roberts said recently that realty operators who protest the ordinances have done themselves harm by publicizing their opposition.

If they had quietly complied with the ordinance there would have been less possibility that other cities might pass similar laws, a fear expressed by Al Sifers of Cavalier & Sifers Realty Co., in Saturday's Tribune.

Mrs. Roberts reported that Barry O'Connor, realtor, had paid his fee Saturday. O'Connor was on the list of eight real estate operators named as violators of the ordinance last Thursday night by the council, but had never been billed by the city.

O'Connor said Monday that he paid the fees as soon as he learned he was required to do so.

"I don't want to become involved in any factional disputes," he said.

Plan Peninsula Helicopter Flight

Request for a helicopter mail and express route that would service the Peninsula and would include stops at Redwood City was filed Wednesday by Southwest Airways Co. with the Civil Aeronautics Board in San Francisco.

The company explained that the Peninsula route, which would radiate from the San Francisco Municipal Airport, would stop at San Mateo, Redwood City, Palo Alto, Mountain View, Sunnyvale, Santa Clara and San Jose.

Two additional routes, one running between South San Francisco and San Rafael, and the other running between San Leandro and Vallejo, were also sought by the airway.

"I LOST 52 Lbs.!
WEAR SIZE 14 AGAIN"
MRS. C. D. WELLS, FT. WORTH
As Pictured Here →

You may lose pounds and have a more slender, graceful figure. No exercise. No drugs. No laxatives. Eat meat, potatoes, gravy, butter. The experience of Mrs. Wells may or may not be different than yours, but why not try the AYDS Vitamin Candy Plan? Look at these results.

In clinical tests conducted by medical doctors more than 100 persons lost 14 to 15 pounds average in a few weeks with the AYDS Vitamin Candy Reducing Plan.

With this Ayds Plan you don't cut out any meals, starches, potatoes, meats or butter, you simply cut them down. It's simple and easier when you enjoy delicious (vitamin fortified) AYDS before each meal. Absolutely harmless. 30 days supply of Ayds only $2.25. If not delighted with results, MONEY BACK on the very first box. Phone

LOCK, YOUNG AND KLEER DRUG COMPANY

It's Off to the Races for Dick

Richard Bygdnes, the Bay region champ, puts a last coat of paint on this racer (top) before embarking on his trip to Akron for the National Soapbox Derby, Sunday. His work done, Dick starts packing his bags (below). The Bygdnes family left Tuesday for the Midwest.

(Tribune photos)

Dick Bygdnes, Parents Leave For Akron Soapbox Derby

Reversing Horace Greeley's sage comment, Richard Bygdnes, the 15-year-old Redwood City racing wizard, pulled out for Akron, O., Tuesday, bent on capturing the National Soapbox Derby.

Dick, along with his parents, Mr. and Mrs. Perry A. Bygdnes, 150 Jeter St., and brother, Allen, left by train recently for the Midwest for a vacation and to watch the youngest Bydgnes carry the torch for the San Francisco Bay Area in the racing event which is expected to pack 100,000 spectators into the arena for the derby next Sunday.

Dick won the honor of representing this region, first by sweeping the Redwood City race, and later by capturing the San Francisco event in competition with 100 of the best youthful racers in this district.

The youthful champ, who is a sophomore in high school, put the finishing touches on his racing car this week before packing his bags for the trip.

"She's in perfect shape," he remarked as he stood back and viewed the streamlined automobile that he had constructed himself.

His brother Allen, competed in the event several years ago and will assist his brother during the preparations for the big race at Akron, Sunday.

Dick will represent the Davies Auto Co., which with the Tribune co-sponsored the Redwood City race last month.

Before leaving for the train depot today Dick promised, "I'll do my best; I hope it's good enough."

So do the two million Bay Area residents you represent, Dick.

R.C. Group Backs Parking Proposal

Redwood Citys' recreation commission Tuesday gave its blessing to a proposed parking-recreation area for California Square.

Incorporation of parking space into a recreation proposal for the city-owned property was made recently by Councilman Floyd D. Granger to alleviate a courthouse parking problem.

The commissioners also discussed plans presented by W. P. Mott Jr., planning architect, whose survey of an over-all recreation and park plan for Redwood City is in its final stages.

City Mgr. E. W. Blom today said Mott may present cost estimates of his proposals within a month.

San Bruno Firm Gives Pay Boosts

Approximately 25 employes of Heintz & Kaufman, Ltd., San Bruno vacuum tube manufacturers, will benefit from a wage increase negotiated last week and retroactive to Mar. 18, date of return to work after the lengthy machinists' strike.

The employes, members of CIO United Electrical, Radio and Machine Workers of America, Local 1412, will receive average boosts of 15 cents an hour, and six paid holidays.

During the long negotiations, the union asked the U. S. Conciliation Service to join employer-union meetings.

The CIO Electrical Workers there were idled for five months when the company's only machinist, a member of Lodge 68 (IAM), joined a Bay Area strike, and IAM pickets received the support of the CIO members.

Knight Named To Radio Post

Arthur P. Knight, former city editor and sports editor of the Burlingame Advance, has been named news editor of radio station KVSM, new San Mateo County broadcasting station which will air its initial program next month.

Knight is leaving the newspaper field after 16 years' service on editorial staffs. He was with the Burlingame Advance for 16 months. Before coming to California, Knight was sports editor of the Glens Falls, N.Y., Post-Star, and served as a copy deskman on the Rome, N.Y., Daily Sentinel and the Waterbury, Conn., Republican.

Knight will supervise the gathering, writing and editing of the county wide news.

North-County Board To Fight License Fee

The San Mateo-Burlingame Real Estate Board served notice Tuesday that it may contest the legality of the much-disputed San Carlos business license ordinance.

Monday the board, meeting in Burlingame, decided to place the ordinance before its legal counsel, Edward H. Cosgriff, to study the measure and report on its validity.

The board, while not directly entering the fray on the side of the seven real estate operators who have defied the ordinance, has ordered the legal check-up in case licensing of out-of-town business men spreads to other communities.

Lewis C. Merrell of Burlingame, member of the Conway & Culligan firm, told the board that in his opinion the ordinance is illegal.

"Just because the San Carlos City Council passed the ordinance," Merrell said, "that doesn't make it legal."

The San Carlos Police Dept. reported that Harry Hoefler, whose name headed the list of the real estate operators cited by the city council as violating the license ordinance, paid his $25 fee Tuesday afternoon.

Hoefler later told a Tribune reporter that his firm had paid "under protest," and charged that the San Carlos law would lead to a "vicious circle" with all Peninsula towns charging similar fees in retaliation.

Hoefler said he doubted that the ordinance was legal, because the state license gives real estate operators the right to operate anywhere in California.

Hoefler called the license "unfair, unprecedented and unwarranted," and said that he had paid because "it is cheaper to pay than to fight the thing in a court."

Redwood City Men Form Building Corp.

Lacey & White, Inc., home builders, has been formed as a $200,000 corporation by a partnership of former veterans, and will build GI homes at 5th Ave. and Bayshore Highway in Redwood City, it was learned Monday.

New directors of the firm are M. J. King, Robert F. White and J. P. Lacey Jr. of Redwood City.

Menlo City Council Votes Street Improvement Funds

The Menlo Park City Council last night passed on the list of expenditures involved in the Merrill Ave. improvement, adopted a budget for the improvement of Middle Ave., and apportioned $5400 to the street fund for the next six-month period.

The first protest meeting on the Santa Cruz Ave. improvement area project will be held concurrent with the final hearing on the 1946-47 budget and tax rate on Aug. 27, announced Mayor Charles P. Burgess. If written protests from more than 50 per cent of the owners involved in the project are handed in to the council before 8 p. m. on that date, the project will be abandoned, Burgess said.

The city will furnish $4650 and San Mateo County will add $4000 for the improvement of Middle Ave. between University Dr. and Olive St. The city's share represents the one-quarter cent gas tax allocated for street improvements. the work will be started soon.

The total expenditure for the Merrill Ave. improvement was $8823, $6059 of which was for construction costs, $899 for land acquisition, and $1121 for incidental expenses. A reserve fund furnished $744 towards the payment.

O. H. Olson, superintendent of Menlo Park schools, acting on behalf of Miss Pansy Abbott, San Mateo County school superintendent, asked the council of there would be "two or three rooms" available in Menlo Park's potential share of the former Dibble property to be used for the education and rehabilitation of the county's (Menlo Park area) spastic children. He explained that such a program is being set up by the county to care for these children after they have been released from one of the state clinics.

The course of treatment at the clinics is three months, and, upon its completion, those children who are judged to have a good chance for recovery are sent to smaller educational and therapy units. There would probably be between 10 and 20 children attending such a school, Olson said.

The council detailed Jack Yount and Lloyd Neuman to accompany Olson on an inspection trip through the city's proposed share of the Dibble property and to report to the council as to whether there would be space available for such a project.

Green, Leafy Foods Are a "Must" for Home Gardens

For family health, the most important crops in the home vegetable garden are the greens, which nutritionists call the "green, leafy, vegetables," and recommend so highly as a source of vitamins.

Of these, spinach is not the chief, since its harvest ends with hot weather. But there are others which bear throughout the summer and produce, for the space they occupy, more food than other crops. Most widely grown are Swiss chard and New Zealand spinach.

Chard is an ancient vegetable, probably the first form of beet to be grown for food, while New Zealand spinach is relatively modern, having been discovered as a wild plant in New Zealand, where the natives did not eat it. It became popular in Britain long before its vitamin content was known. Its flavor resembles that of spinach.

It has large, hard seed, which some have difficulty growing; but grows well if sown in the early spring, as soon as the soil has been prepared. Seeds often live over winter and come up in the spring, and the plant is hardy in spite of a tropical origin. But it is easily overdone; since one plant fills a bushel basket, and when the tips of its leaves are cut off for use, new tips grow rapidly, and the harvest continues until late in the fall.

Swiss chard should be used when the leaves are young, not over ten inches in height. Sown with the earliest crops, it will be ready to cut in a month, and new leaves will grow to replace those that are cut. Chard has a distinctive flavor which many prefer to spinach, and children usually like it better.

The mustard family provides several varieties of greens. One known as Tendergreen will produce edible leaves in 21 days from sowing, and if the roots are left undisturbed will produce eight or nine crops in the season. All the mustards are quick growing, and are much esteemed in the southern states.

Garden sorrel is a hardy perennial, which will live over winter and produce greens. It does best in light shade.

A Single Plant of New Zealand Spinach.

Kale is a fall and winter plant. Sown in June, the plants set out in rows two feet apart, they will produce leaves which stand freezing, and are improved in flavor by that experience. Collards are a member of the cabbage family which do not make heads, but leaves with cabbage flavor.

All these varieties of greens are rich in minerals and vitamins, and are valuable in the diet. It is well for the home gardener to plant a small quantity of several kinds so that the family does not grow tired of greens. All produce a surprising quantity of food on small space.

Chinese (Indian) Sued for Divorce

Horace Y. M. Fong, operator of Fong's Iroquois Village, restaurant on El Camino Real in Redwood City, and a self proclaimed Indian, was sued for divorce in Alameda County Tuesday by his white wife, Mrs. Ann E. Barstow Fong.

Fong was in the news four months ago when a group of his neighbors in Oakland's swank Oak Knoll section attempted to oust him. Both Fong and his wife charged the ouster attempt was based on racial discrimination.

Fong's attorney, Melvin Belli, claimed, on the strength of an old court ruling, that Chinese are Indians; therefore his client was a true American. Fong subsequently moved into Belli's Atherton home and the two opened a restaurant here.

Belli declared that his home at Atherton "is a darned sight more exclusive than Oak Knoll."

Mrs. Fong claims her divorce suit has nothing to do with the racial question. She charged cruelty and asked reasonable support and legal fees.

The couple was married four years ago in Denver and separated last June. They have no children. A property settlement already has been agreed upon, according to Myron Harris, Mrs. Fong's attorney.

SEEK R.C. YOUTHS

Two Redwood City boys were under suspicion Monday of rifling $10 from the Catholic Church at Newark, Alameda County, and of stealing a 1942 Chevrolet maroon-colored coupe from Father McLaughlin, pastor of the church, the sheriff's office here reported.

News of Commuters

BY LOCOMOTIVE BILL

BLOWING OFF STEAM: Our pet peeve of the week has to do with Redwood City employes and their shabby treatment by our city council in the matter of salaries. The last figures that this writer has seen indicates that in the salary ordinance as passed by the council and now in effect, our city employes received an average increase of only 4 per cent which means that some got more, some less and some none at all. This in face of increases in the cost of living during the past year and before the city council passed the salary ordinance, estimated at between 25 per cent and 50 per cent depending upon what government bureau or labor organization compiled the figures.

No consideration was apparently given to this or the fact that the cost of living would continue to rise, or if consideration was given it was shoved aside because the city was having trouble balancing their budget. Just last Friday the Bureau of Labor Statistics announced there was a 13.8 per cent rise in retail food prices from June 15 to July 15, an example of what these employes are up against.

★ ★ ★

Loco is not an agitator but how anyone can justify giving our city employes such a miserly increase and still expect them to maintain a decent standard of living is difficult for the ordinary mind to comprehend. It is this kind of treatment that breeds agitators and causes unrest among our people.

★ ★ ★

Palo Alto and a few other cities who also have treated their employes shabbily are now faced with strikes and unionization of these employes. Not that there is anything wrong with labor unions but that strikes against government whether city, state or national are incompatible with our constitution and are not to be tolerated in a democracy.

★ ★ ★

The employes of Redwood City undoubtedly recognize this and never to this writer's knowledge have they made any effort or threats to cause trouble either through their own city employes' organization or by joining a labor union. Not that they haven't been tempted to do this very thing, they wouldn't be human if they didn't entertain such thoughts in an effort to better their standard of living.

★ ★ ★

The fact remains that they have been very patient and loyal hoping that the city would reciprocate and appreciate their loyalty. San Mateo just recently granted their city employees a 16 per cent increase and other cities and counties have given even larger increases.

★ ★ ★

It is true that cities are having difficulty in balancing their budgets in these days of rising costs but means are being found to meet the emergency. For instance San Mateo has decided to install parking meters which have been successful in many cities, and has set up in their budget an estimate of tax revenue from this source of $48,000.

★ ★ ★

Many California cities are considering sales taxes, bond elections and various other methods of taxation. The money can be found if our city officials really want to give our city employes and their families a living wage.

★ ★ ★

Reliance should not be placed upon the thought that the employes have been adequately provided for because they have received an increase of slightly over 40 per cent since 1941. It must not be overlooked that the salaries of city employes in 1941 were notoriously low compared with salaries in private employment for the same type of work.

★ ★ ★

This writer is definitely of the opinion that our employes should not be asked to work for wages lower than those paid in private industry for comparable employment otherwise the efficiency of our city government is bound to break down with the consequent loss of thousands of dollars.

★ ★ ★

This would be poor economy and our city manager should not be thus handicapped in his effort to keep and hire the most efficient employes he can obtain to carry on the function of our city government. We are confident that our city officials will realize this and immediately consider steps to correct an obvious injustice to loyal and faithful public servants.

★ ★ ★

Secy. Frank Hull's monthly letter to Commuter Club members indicates a big evening is planned for the dinner meeting tomorrow at the Aviation Cafe. A large crowd is expected to attend.

★ ★ ★

PERSONALS: George "Cosey" McCaffigan was seen sleeping soundly on the 5:20 train from S.F. the other evening. . . . A kindly commuter with a gentle poke brought him too just seconds before the train left the Redwood City station. . . . Ray Johanson has returned to Redwood City after an absence of many months and is once more riding the trains to S.F. . . . Commuters returning from vacations were Paul Allen and Herb Nelson. . . . Howard Magee's red necktie had the boys stopped cold last Friday morning . . . The Commuters Club have an official greeters committee this year consisting of Stanley Perkins, Jack Werner, Joe Harper, Ed Horgan and George Raubinger. . . . Joe Harper entertained the directors last Tuesday evening and those fortunate to be present enjoyed the meeting and Joe's hospitality. . . . The food and drinks were excellent. . . . In the Hobby Dept we give you Kim Kimberly. . . . Kim has speaker and record equipment second to none, most of it assembled by himself. . . . He is a one-man orchestra and has frequently provided the music for USO, Commuter and other affairs held on the Peninsula. . . . Gene "Caboose" Hoffman and Elmer Ross reported leaving the hospital this week with both men making real progress on the road to complete recovery.

Blom Answers City Pay Change

City Mgr. E. W. Blom Wednesday answered Locomotive Bill, Redwood City commuter columnist, who this week attacked the city council's policy on city employe salaries.

"Present day salary schedules were adopted by the council exactly as recommended by me. If salaries are too low, he should blame me, not the council," Blom said.

He then pointed out the 1946-47 salary ordinance was based on studies made in April and May when, according to a Department of Labor index, living costs since July 1, 1941, were 27 per cent less than costs in April, 1945.

Present salary scales average 38 per cent over 1941 scales, Blom said. Individual increases vary from 22 to 80 per cent.

Blom said price increases since salaries were determined this year had no more than caught up with the city percentages of salary boosts.

He suggested allowances might be necessary if prices continued to increase, but he pointed out the price curb has dropped somewhat with reinstatement of the OPA.

SISTER GETS ESTATE

John P. Cashin, who died in Redwood City Aug. 6 at the age of 72, left his entire estate, valued in excess of $10,000, to his sister, Annie M. Heggerty of San Francisco, his will filed for probate here Tuesday shows. The will was dated Nov. 30, 1945.

Exchange Club Hears July 4 Report

H. E. (Rowdy) Holmquist made his final report to the Redwood City Exchange Club Tuesday on the sale of hot dogs at the club's July 4 rodeo concession. He listed sales at $2529, expenses at $1214, profit to Peninsula Celebrations, $854 and $460 to the club.

Holmquist, active in the Sequoia Hospital District program, outlined the history of the project and the effort to be made to organize the district by election in November. J. A. Buhler was chairman of the meeting.

C of C Votes Funds For Fiesta Exhibit

Directors of the Redwood City Chamber of Commerce this week voted $150 to finance the Redwood City exhibit at the 1946 San Mateo County Floral Fiesta. They declined approval, however, of a $1000 investment in street decorations for the city at fiesta time.

Ray Spangler, president, explained that the board desires to co-operate with the fiesta in every practical way and is willing to spend additional funds on its fiesta exhibit if necessary. The board members felt the expenditure of a rather large amount on street decorations here would not bring maximum return for the investment either to Redwood City or the fiesta, he said.

Mgr. E. W. Butler announced plans for a chamber of commerce membership meeting Aug. 20 to hear George Bahrs, president of the San Francisco Employers Council. He also announced detailed plans for a merchants' open house and style show next month, and a Christmas pageant designed to attract thousands of visitors to the county seat.

Sheriff Seeks PW In Murder Threat

The sheriff's office here has been notified to be on the lookout for Wesley C. Landstrom, an escapee from the Las Vegas Army Air Field guard house, who declared he was coming to Redwood City to kill a Mexican farmer who lives in or near Redwood City.

Landstrom was placed in the guard house on information provided by the Mexican, whose name was unknown.

Sheriff James J. McGrath was notified by Sheriff Glen C. Jones of Las Vegas.

LOOK *to Greyhound first for*

COMPLETE TRAVEL SERVICE

What do you get for your money when you buy a bus ticket? If it's Greyhound, you're getting much *more* than just a way to go places. For Greyhound service is complete. It begins the minute you enter the depot . . . and *stays on the job* right to the end of your journey.

Greyhound travel service in all its many forms has continuously set the pace for the entire motor bus industry. It explains why bus travelers everywhere show such an overwhelming preference for Greyhound.

Such service is made up of a lot of things that make a big difference to the fellow who is doing the traveling . . . reliable information cheerfully given by people who know *travel* business . . . expert help in planning a short trip or a complete vacation . . . clean, modern depots in handy, downtown locations . . . carefully planned meal and rest stops with good food and up-to-date facilities . . . the world's best drivers, famed equally for courtesy and their ability at the wheel.

Now and tomorrow, you and your community can *depend* on Greyhound travel service . . . the very *best* in modern highway transportation.

Propose New Street —Parallel to Main— To Ease Congestion

In adjourned session Monday morning, Redwood City councilmen moved ahead on two off-street parking areas that will accommodate more than 250 cars, when they authorized plans for parking space on:

1. A new street to be developed as a parking area and thoroughfare 150 feet parallel to Main St. frontage between Middlefield Rd. and Broadway, and

2. California Square which

Councilman Floyd D. Granger recently proposed as a parking-recreation area in answer to courthouse demands for parking space.

The two projects, with a third area on Perry St., now under consideration, will "knock the heart out of the downtown parking problem," councilmen agreed Monday.

The Main St. project, presented recently in preliminary form for the first time, will be an adaptation of a 75-foot street for which condemnation proceedings were instigated by City Atty. Paul A. McCarthy several weeks ago.

The modified proposal, as explained by City Engineer Don S. Wilson and City Mgr. E. W. Blom, will require condemnation of additional land. However, only small storage buildings would be directly affected by increasing the condemnation.

Entrance on the Broadway side would be at the building housing the Murray Studio, and would include all but one foot of the building and a vacant lot adjoining.

The Middlefield Rd. entrance would be at the site of Redwood Creek, which, in the project, will be straightened and covered.

Preliminary sketches showed a barrier in the center of the thoroughfare, and provisions for parking on the barriers and on the sides of the thoroughfare. Pedestrian easements will be maintained to Main St. and Jefferson Ave.

Proposals to cut a street through the block, one of the largest in the city, have long existed in city government, but present action was evoked only recently.

Opening of a thoroughfare there will give rear access to city hall, post office and business properties.

In authorizing the city engineer to draw plans and specifications for a 95-car off-street parking area at California Square, Marshall and Hamilton Sts., the council took a step which precedes the advertising of bids.

Nearly 100 more automobiles will be accommodated in the street parking area around the block.

Wilson estimated cost of the parking portion of the block would approximate $10,000. Sidewalks may be paid for out of bond funds set up for improvements of the block as a recreation area, although the question remained controversial and was not decided.

The block is already owned by the city.

McCarthy said he was preparing petitions to be circulated among property owners as first step in formation of an assessment district to finance the Perry St. acquisition, and added condemnation proceedings would be started soon.

He said he would soon prepare petitions for the Main St. area for which method of financing has not yet been determined.

The $998,000 bond issue set up for public works projects included an appropriation for acquiring off-street parking areas.

Assessment Roll Voted

For the sixth successive year, the city council met as a board of equalization here without hearing a protest on the 1946-47 assessment roll which it approved.

No property owner appeared in the council chambers, or presented a written protest on the roll which, according to Assessor Nelle Miramontes, this year includes 3027 changes over the previous roll.

Included are changes in ownership, addresses and subdivisions, she said.

Councilman Floyd D. Granger, who presided as mayor pro-tem during the absence of Mayor W. W. Hilton, adjourned the board of equalization at 10:15 a.m., and the council reconvened to undertake incompleted business from their meeting a week ago.

They awarded a bid of $62,651-.67 to the California Paving Co. for improvements to Hudson St., subject to approval of the state highway commission.

The bid was approximately $6000 over estimates, and will necessitate a re-assessment of the project.

Upon suggestion of Councilman William H. Werder, the council agreed to go ahead with the bid after it was pointed out if bids were readvertised and work did not begin until next Spring, costs may be 10 to 15 per cent more.

The council also approved a supplemental contract with Engineer Willis G. Frost who is preparing plans for the city's sewage disposal plant.

Approval was given an agreement with two property owners, Corbett and Hucke, on a right of way at Vera Ave. and Quartz St. Werder said the agreement was "very advisable as far as the city is concerned."

Despite protests of Councilman George McNulty, councilmen approved the purchase of $7500 worth of water meters which, Blom said, would assure the city delivery and save money through a discount.

McNulty insisted the purchase, although of a uniform make used exclusively by the city, and involving no sale of services, violated the intent of the charter.

The city attorney upheld Blom's request for the purchase.

The council also approved preliminary plans to enlarge the Rose Trailer Court at 1903 Bayshore Hwy. for 50 trailers. Eugene J. Roy made the request.

Chest Drive Committee Heads Named

Ray Spangler, campaign chairman for the $30,000 Redwood City Community Chest drive, Tuesday announced appointment of chairmen of subcommittees.

Solicitation of industrial employes will be handled by Atty. A. H. McGovern.

J. A. Buhler, manager of the California-Broadway Branch, Bank of America, will direct solicitations from the city's doctors, attorneys and dentists.

Canvass of courthouse employes will be made by Russell Cooney, county personnel manager, and the campaign among city employes will be handled by City Clerk R. S. Dodge.

Dr. Sumner Hardy and Fire Chief John Volpiano will be co-chairmen of the campaign in Woodside.

Mrs. Donald Bogie will take charge of arrangements for the annual kick-off dinner, Sept. 25, at Sequoia High School.

K. L. Bowen will edit the Community Chest's annual newspaper, and special commercial district displays will be set up by W. Earl Whitaker, manager of last year's campaign.

J. C. Ferrell is preparing a parade of Community Chest agencies on Sept. 28.

Martin Flynn, county assessor, called a meeting of his special gifts' committee this afternoon, and the board of directors of the chest is scheduled to meet tonight.

Mayor W. W. Hilton is honorary chairman of the organization. S. D. Herkner is president; James Thomas, vice president; W. Earl Whitaker, secretary; C. C. Armstrong, treasurer; and directors are Mrs. Donald Bogie, Mrs. David Bohannon, Warren Emerick, Dr. Hardy, W. T. Kellogg Jr., J. Wesley Locker, T. A. Rhorabough, John W. Ryan, B. Grant Taylor and Volpiano Mrs. Evelyn H. Carlson is executive secretary.

Phone Building Tieup Continues

Negotiations still were reported stalemated Wednesday over dispute which since July 30 has halted work on new Pacific Telephone and Telegraph buildings in the Bay Area.

The dispute was over whether the Independent Associated Communication Equipment Workers or the AFL International Brotherhood of Electrical Workers should supply the men to install electrical equipment.

All construction work has been halted on buildings in Redwood City, San Bruno, Sharp Park and Half Moon Bay on the south Peninsula, on the Montrose Office in San Francisco and the Hayward and other buildings in the East Bay.

Coffee Prices Upped 10 to 13 Cents by OPA

OPA Wednesday authorized immediate retail price increases on coffee, ranging from 10 to 13 cents a pound.

The increase results from:

1. Cancellation of an import subsidy of 3 cents a pound. The subsidy was discontinued when the price control law lapsed July 1.

2. An increase of about 2 cents a pound authorized for importers June 28. This increase had not been passed on to retail levels.

3. A further increase of about 3 cents a pound in importers ceilings authorized today as an inducement to increased coffee importation.

The amount of the retail increase will vary depending upon method of distribution of coffee, OPA said.

The agency said the biggest increase of 10¼ cents a pound for processors of roasted coffee, coffee compounds, soluble coffee and soluble coffee products.

OPA said that wholesalers and retailers, including retail wagon route sellers, may apply their regular percentage markups to the new, higher cost of coffee.

Also, Wednesday OPA authorized price increases for dry, edible beans to offset cancellation of subsidy payments.

The Agency said the biggest increase at retail will be about two cents a pound for red kidney beans. White navy beans will go up about one cent a pound.

Housewives will begin paying higher prices as soon as suppliers have notified grocers of the increase, OPA said.

OPA and the Agriculture Department previously had announced that no subsidy would be paid on the 1946 crop of beans. OPA said that since the 1946 crop will begin to move to market about Sept. 1, "it was decided not to pay subsidies on the small amount remaining of the 1945 crop."

For processors and dealers, the price increases are effective immediately on beans they had on hand on and after July 29. However, the increase applies only on beans on which no subsidy was paid or is payable, OPA said.

Subsidies were discontinued July 28.

Girls, Look Out!! Fiesta's After You

Shish-sh-sh-sh—it's a secret!

There's a search on for six beautiful Cinderella girls to represent the San Mateo County Fiesta in publicity pictures of the event, which is scheduled for Bay Meadows Sept. 27 through Oct. 5, inclusive.

"This is definitely NOT a queen contest," explained Floyd Tower of San Bruno, after he was cornered for comment on the matter.

"But there is a quiet search going on through the county for six photogenic girls with charm and personality who will reflect in their own beauty the floral splendor that will mark our fiesta.

That was all Tower, a member of the fiesta directorate, offered on the subject. Try as they might reporters could not wring another syllable from his lips about the search for the fiesta Cinderella girls.

But, from authoritative sources, newsmen learned the following:

The fiesta publicity department, headed by Norman Corlett, who is chairman of the San Mateo County Fiesta Publicity Committee, will begin a search for the beautiful girls this week at Redwood City.

New Flowers and Vegetables Win All-America Awards

Every year creators of new varieties of vegetables and flowers send trial samples of seed to the All-America Selections Committee.

The seed is then sent to seventeen trial judges to be tested in 17 different sections of North America. After these new introductions have been tested for one season the judges rate on a scale of points those which they think possess the greatest merit. The varieties winning the most points constitute the All-America Selections for that year.

The silver medal winner for 1946 is Petunia, All Double Colossal Shades of Rose. This variety excels in size, in its waved, ruffled and fringed petals and in the strength and vigor of the plants. They attain a height of about eighteen inches at maturity, the huge flowers measuring from four to five and one-half inches across. The colors range from light, salmon-pink to deep pink and purplish-rose.

The bronze medal winner is Petunia Bright Eyes. It grows to a height of about ten inches and is covered the entire summer with small, plain petalled flowers about one and one-half inches across. The color is rosy-pink, showing a trace of white in the throat.

Petunia Peach Red won honorable mention this year. The color is salmon, suffused with rosy-cerise which provides a truly unique effect. The plants are of the dwarf type, growing to approximately fifteen inches at maturity. The flowers are about two inches across and are produced in profusion throughout the entire season.

Another honorable mention was awarded to Dianthus, Westwood Beauty. The plants grow to ten or fifteen inches in height and the flowers are carried on long, wire-like stems. The individual florets are about two inches in diameter, deeply fringed and ranging in color from fiery crimson to a deep, velvety red, Westwood Beauty tolerates quite a bit of heat and is free-flowering to a great extent.

The only vegetable winner in the All-America Selections for 1946 is Longreen snapbean which is an improved strain of bean. The pods are round, stringless and fiberless and are about one inch longer than most beans of this general class. The plants are extremely hardy and produce in great abundance.

Menlo Park Youths Held in Burglary

A heel print left on a piece of heavy black paper led to the arrest Saturday afternoon of 12- and 14-year-old Menlo Park brothers who admitted after considerable questioning that they had stolen $500 worth of silverware, four cases of assorted liquors and a youngster's wagon from a Menlo Park home a quarter of an hour after William J. Ghiglione had moved into the house.

Ghilglione reported to the sheriff's office that a truck had delivered his belongings to his new home at 780 Ringwood Rd., Menlo Park, at 4:45 p.m. Friday and that he discovered the theft when he returned at 7 p.m.

The two brothers were questioned about the theft but denied any knowledge of it. Dep. Sheriff Milton Minehan found a 1x2-foot piece of paper on the floor with a heel print on it. He compared the print with the heel worn by one of the boys and found it to fit in every respect.

It was not until they were brought to the sheriff's office here, however, that they admitted their guilt. They said they took the goods at 5 p.m. Friday.

One of the boys had been involved in prior thefts, Asst. Probation Officer Anthony Lovoi reported.

Ask M.P. School Board To Reconsider Site

Charging that the erection of a school on the Pryor property on Middlefield Rd. in Menlo Park would reduce the property value of the adjacent Felton Gables Subdivision, a six-man delegation of residents of the new residential area this week asked the Menlo Park School Board to reconsider its plan to condemn the Pryor property for use as a school site.

Although condemnation proceedings on the tract have already been started by the San Mateo County district attorney, a meeting of all groups interested in the location of the new three-room unit will be held in September, said O. H. Olsen, superintendent of Menlo Park Schools, this morning.

If there is sufficient protest against the proposed location at that time, it will not be too late to change the plans, he added.

Pumps (like people) need A PERIODIC CHECK-UP . .

Many California farmers are pumping more water today, at less cost for electricity, because they have taken advantage of P. G. & E's free irrigation engineering services.

Pumps can lose some of their efficiency after extended use over a period of time, so it's well to give them an occasional check-up. Even though the cost of electricity now is lower than ever, you may need even less power if your pump is performing at its best.

Pacific Gas and Electric Company's irrigation engineers will be glad to consult with you on your irrigation problems—to help you determine the efficiency of your plant and the best methods of operating it.

For maintenance and repairs on your pump, see your dealer.

P·G·and E·

PACIFIC GAS AND ELECTRIC COMPANY

45W-846

Prices in this Ad are effective Thursday, Friday and Saturday, August 15-16-17, in San Francisco, Oakland, Alameda, Berkeley, Hayward, Richmond and other cities and towns in San Mateo and Contra Costa Counties, unless changes are required as a result of new OPA regulations.

You REALLY save with SAFEWAY'S LOW PRICES . . . because quality is guaranteed

You can't judge saving by *price* alone. *Quality* too, must be right . . . especially in food. Safeway promises to please you on *both* counts and invites you to make a 30-day test to prove it: For one month, buy all your food at Safeway. Get meats, groceries, fruits and vegetables of *guaranteed* quality, at every day low prices. Then compare the total cost—*and eating pleasure*—with that for a previous month. We are sure you'll find a worthwhile money saving, *plus* an added dividend in good eating.

Early Crop from Onion Sets Will End Scarcity

Mature Onions Can be Grown from Sets in Three Months.

In three weeks from planting, onion sets' produce spring onions for the table. This spring finds a most unusual situation in the onion market. Mature onions are difficult to buy, but sets are plentiful and prices much reduced from the wartime peak.

During the winter, large sets were being purchased to use in cooking, so plentiful and cheap were they. Amateur gardeners can easily insure themselves against a repetition of the onion shortage next winter by planting sets to grow mature onions, which will take three months.

From 15 to 30 pounds of large onions can be grown from a pound of onion sets which do not average over three-quarters of an inch in diameter. To grow large onions, use the smallest sets, planted an inch deep. To grow spring onions, select the larger sets and place them two or three inches deep. The smaller sets do not make seed stalks, but devote their energy to maturing a bulb, which will keep well in storage, even in a warm basement. The larger sets send up an edible stalk in quick time, and the deeper they are planted, the longer will be the stalk.

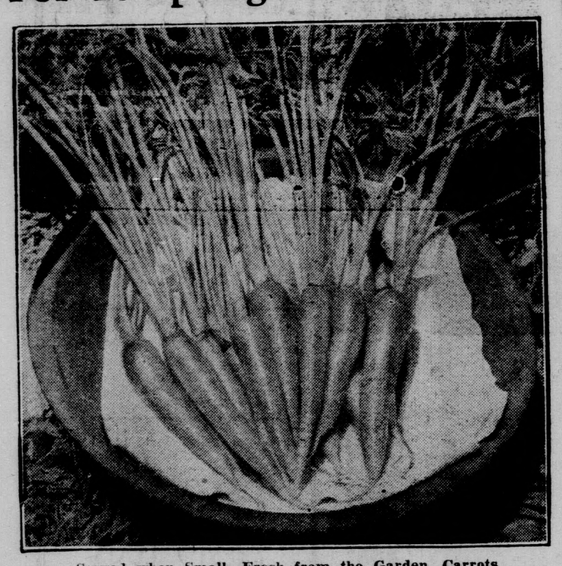
Bermuda and Spanish onion plants are sown in the southern states during the winter, and when as large as a pencil are shipped north to be planted in gardens. They should be fresh and green when you plant them, and should not be set out for a week or two after your garden soil has been prepared. Space them four inches part in the row. Onion plants can be grown easily in an indoor seed box, and set out in the garden when the soil is ready, and the plants are large enough to handle.

Green onions may be grown from seeds, sown with the first crops. It takes much longer to produce either green or mature onions from seeds than from sets. Sow fairly thickly, cover half an inch, and thin out the young plants early. If you are growing for green onions, space them an inch apart. As they attain a usable size, they can be used, and plants may be left standing four inches apart to mature.

When the onion tops grow limp and fall over, it is a sign that the bulbs are mature. They need not be pulled at once, but when they are harvested they should be dried several days in the sun and stored in a well ventilated place.

A rich soil is required to grow large onions from seed. A balanced plant food should be applied at the rate of a pint to 25 feet of row, raked well into the top soil before planting.

Keep New Carrots Coming For Tempting Health Food



Served when Small, Fresh from the Garden. Carrots Are Most Delicious.

Carrots are the most nutritious of root crops, but they were used as food for centuries before this was known; and home gardeners can tell you why. Served when small, and fresh from the garden, they are one of the most delicious of vegetables.

The seeds are tiny, take twelve to eighteen days to germinate, and the seedlings are feeble. They should not be covered with soil which will form a crust; and it is well to mix a few radish seed with them, to come up quickly and "mark the row," so cultivation will not disturb it.

To insure even germination, when the soil contains much clay, a special mixture of loam, sand and humus should be used to cover the seed, which should be sown about ten to the inch. The minimum germination allowed by federal law is 55 per cent.

When sown this thinly the young plants may be allowed to grow until they are as large as pencils, when alternate ones may be pulled up to provide a dish of baby carrots, which the whole family will enjoy, whether they are anti-carrot minded, or not.

If the carrot row is sprayed with kerosene, after the plants have made four true leaves, using one quart to 100 feet of row, the weeds in the row will be killed without injuring the carrots. This method is used in commercial production in several states.

The first sowing may be made as soon as the ground has been prepared. Roots will attain table size in 60 to 85 days, depending on the variety; and roots from the same sowing can be harvested in good condition over a period of six weeks. As the carrot grows older its vitamin content increases; but its tenderness and flavor are best when young.

Carrots are rich in vitamins A and B; and they are becoming popular as a salad vegetable, served raw. By sowing a six weeks' supply every six weeks young carrots can be enjoyed through the summer.

Nurse Shortage In County Acute

Dr. Harold Raycroft, superintendent at Community Hospital Wednesday declared nurses are desperately needed at the county hospital.

He said the hospital has only 17 nurses, whereas it has been authorized to have 48. The hospital is authorized to have 25 attendants, but it has only 14.

Dr. Raycroft said another wing at the hospital could be opened up if nurses could be secured.

San Carlos Property Purchased for $46,500

Mr. and Mrs. George Lagomarsino have sold a store building on El Camino Real in San Carlos to Mr. and Mrs. Wallace W. Blight for an indicated price of $46,500. The Blights operate an appliance store.

Leon De Simone has sold a residence on Encinal Ave. near Benson Ave., Atherton, to Howard F. Bernhard for an indicated price of $58,500.

Chest Opens Drive Here Tomorrow

Nineteen volunteer "feather merchants" will start a quest in Redwood City for a $12,000 slice of the Community Chest's $30,000 quota this week.

They are the nineteen members of Martin Flynn's advance gifts committee, dubbed "feather merchants" because the Community Chest this year has adopted the national campaign symbol, a brilliant scarlet feather.

Flynn Tuesday called his committee together and assigned to his volunteer workers the names of approximately 150 honor roll Community Chest subscribers who give $50 or more each year.

While the advance committee prepared to get underway, Dr. Sumner Hardy and Fire Chief John Volpiano laid plans to start the Woodside solicitation Sept. 1. The Kiwanis Club will begin Redwood City business district solicitations Sept. 9, and the annual canvass of the residential area will start Sept. 29.

Detailed plans for the campaign were presented to the board of directors of the chest Tuesday. Pres. S. D. Herkner announced the resignation of Mrs. Stanley A. Cottrell, 1318 Jefferson Ave., who has served as a director for the past year and a half. Nominated in her place was Miss May Simpson, representing the Business and Professional Women's Club.

Members of Flynn's advance gifts committee are Carl E. Ward, T. N. Thompson, J. D. Hedge, J. Elmer Morrish, Wilbur Doxsee, John Lohoar, Henry Witte, H. C. Mitchell, C. A. Nelson, Graham Adams, J. A. Buhler, W. M. Martin, Duncan Reynard, K. B. Towne, H. C. Maier, William Werder, Milton Gooding and Herkner.

Mrs. Donald Bogie, chairman of the annual kick-off dinner, announced Wednesday that tickets for the affair, to be held Sept. 25, at Sequoia High School, will be sold for $2.

Bus Loading Changes Here Tomorrow

New loading zones for buses of the Martin Transportation Co. will go into use this week in a plan proposed to eliminate three hazardous zones now in use and to facilitate flow of traffic.

City Mgr. E. W. Blom, who with R. F. Martin of the bus company, worked out the new zone plan, said the major changes would be at:

1. El Camino and Broadway where a loading zone in front of Baird's Pharmacy will be eliminated in preference to an area in front of the Lucky Market;

2. Broadway near Perry St., where a C route loading zone will be moved onto Perry St.

3. Broadway near the railroad tracks (in front of a Standard Oil station), where a loading zone will be moved east to in front of the Redwood Town Shop.

During commuter hours, all buses will load and unload on Winkelbleck St. near the Southern Pacific Depot. Blom explained that this will eliminate need of crossing the tracks or Broadway by commuters at peak hours.

New stops in downtown Redwood City will be:

1. Winslow St. and Broadway and the Mobilgas station.

2. Hamilton St. and Broadway at the J. C. Penny Store;

3. Middlefield Rd. and Broadway at the courthouse;

4. Broadway, halfway between Main St. and Jefferson Ave., on both sides of the street;

5. Main St. in front of the Union Furniture Store;

6. Main St. off Middlefield on the northwest corner;

7. Middlefield Rd. off Main St. on the northeast corner;

8. Main St. off Middlefield Rd. on the southeast corner;

9. Middlefield Rd. at the entrance of the Safeway parking lot.

The new zones, which were being painted today, will cause only a slight loss in the number of parking spaces available, Blom said.

The new areas were planned large enough to permit the buses to pull out of the line of traffic, he explained.

He reminded that the new zones will not, at present, involve changes in time schedules or in routing.

Acquit Guernsey Of Arrest Charge

Henry Guernsey, 24-year-old Atherton carpenter Wednesday was found not guilty of resisting arrest in Atherton by Justice of the Peace Edward I. McAuliffe, who charged the district attorney's office failed to provide sufficient evidence to prove that a legal arrest was made.

Guernsey last Friday was sentenced in Atherton Police Court to 10 days in the county jail on a charge of disturbing the peace on July 19. Guernsey was charged with resisting arrest after it took two Atherton policemen to subdue him on the disturbing the peace charge.

"You must have presented more evidence in the Atherton court than you have here," Judge McAuliffe told Chief Dep. Dist. Atty. A. S. Whitmore, in pronouncing the not guilty sentence.

Whitmore was laboring under a handicap, Judge McAuliffe conceded, since Wednesday was supposed to have been the day for Guernsey merely to plead. However, Guernsey's counsel pleaded that the trial go on, since Guernsey already has spent 24 days in jail since his arrest.

Guernsey's wife and mother were in court this morning.

Guernsey was free on $10,000 bond as the result of a rape case involving WAC Cpl. Lucille Dewey, in which his brother, William, also was assertedly involved. The bail was ordered cancelled after the July 19 arrest.

Outstanding Recreation Area Being Planned for Menlo Park

"Menlo Park will have a community center with few equals in cities of comparable size in the country," said Mayor Charles P. Burgess this week referring to the portion of Stanford Village—formerly the Dibble Hospital property—which Menlo Park hopes to acquire "within a few months."

Describing the proposed plans for the development of the eight buildings and extensive outdoor athletic facilities on the 30-acre tract along the railroad tracks as "a priceless asset to our city," Burgess outlined in detail the uses to which the facilities are to be put.

He stressed that the use of these facilities is predicated on Menlo Park's acquisition of the property which has not been determined at this date, but he seemed confident that the hoped-for property would be in the city's possession within a few months.

"It is our understanding, based upon interviews with Federal Housing Authority and Stanford officials, that within a few months a portion of the property will be declared surplus to the needs of the Federal Housing Authority, and that this portion will include the areas desired by the city. As a municipality Menlo Park will be entitled to a 40 per cent discount on the appraised value of the property, on top of which it is the policy of the federal government to grant a very substantial further discount where such property is to be used for such purposes as we plan," he recounted.

The outdoor recreational facilities include a baseball diamond, softball field and handball, tennis, basketball and volleyball facilities. In addition, a wood area near Ravenswood Ave. will make ideal picnic grounds.

"The swimming pool has 6000 square feet of water area, something less than one square foot per capita in Menlo Park, so not quite the entire community could go swimming at once," the mayor chuckled.

The former Dibble firehouse will be converted into quarters for Chief Jack Yount's police force and will provide ample garage facilities for police cars and motorcycles. Judge Edward J. Ryan will have space for a police court in this building also.

The post engineer's building is pegged to be the city hall, housing offices for Mrs. Margaret Becker, the city clerk, and for Mrs. Frances Maloney, city treasurer, and also a meeting room for the city council.

Office space for the street and park departments as well as for the building inspector will be provided in the utility warehouse with its ample garage space and 1800 square feet of former storage space. Next to the corporation yard is a service station where gasoline for police and street department vehicles could be stored.

Various community organizations will be permitted to use the former motion picture theater for meetings and for public lectures, while the stage facilities could be utilized by the Menlo Players' Guild and other such organizations.

The spacious gymnasium—with a floor space of 96 by 78 feet—will be ideal for athletic events, for community dances, and other activities which require large floor space.

In back of the proposed city hall is a large structure measuring 50 by 132 feet which will be used as youth center building. Quarters for the Girl Scout and Boy Scout troops would be provided here as well as recreational facilities for other youngsters. The Menlo Park branch of the county library, now located on the second floor of the city hall, will be installed here, too.

There is one more building, measuring 26 by 48 feet, for which the plans are still indefinite, but it could be used as a clubhouse for various civic organizations.

Werder Host To Conciliators

San Mateo County Fire Warden Bert L. Werder Tuesday afternoon took 19 members of the U.S. Conciliation Service who are in this area to aid in settlement of various strikes, on a tour of Memorial Park.

After the tour, the group held a meeting in San Jose, at which time they "talked shop," discussing the attitude a conciliator should have in settling disputes. Although the conciliators pointed to no particular striking group, they declared that conditions under which employes are working often figure more prominently in disputes than wages.

Edgar Warren, director of the U.S. Conciliation Service in Washington, D.C., was among those present. Others atending were from various Western states.

Dr. Fromm Office Opened by Gardi

Dr A. J. Fromm, Redwood City dentist who is in Mills Memorial Hospital recuperating from automobile accident injuries, announced Wednesday his office will reopen Monday. Dr. A. J. Gardi, who will open his own practice in Redwood City as soon as his new offices are completed, will meet Dr. Fromm's appointments.

Dr. Fromm will be confined to the hospital for an indefinite period. He is suffering from a fractured hip and other injuries.

Dr. Gardi is a graduate of the University of California. He practiced in San Leandro and San Francisco before entering the navy. He held the rank of lieutenant and saw service at Saipan and Guam, and after nearly three years of active duty was released to inactive status in March of this year.

He is living at 27 Hopkins St. and will open his own offices in the Falcone Bldg. at Marshall and Winslow Sts. when Dr. Fromm returns.

Autopsy Ordered In Boardman Death

Word from Dr. Stuart Lindsay, University of California pathologist, was awaited in Redwood City Tuesday afternoon as authorities scheduled an autopsy to determine cause of death of Thomas Danforth Boardman, 76.

Mr. Boardman, native San Franciscan and prominent insurance man, died at his summer home in Woodside Heights Monday night.

His body was discovered Monday morning by Iola Miller, housekeeper.

A physician friend of the family requested an autopsy upon discovery of a small bruise above the dead man's left eye.

The bruise may have been caused when Mr. Boardman slumped into a window seat on which he was found, deputies from the sheriff's and coronor's offices said.

Mr. Boardman, who had visited his San Francisco office Monday had been spending the Summer at his home on Eleanor Dr.

He graduated from the Boys High School in San Francisco and was married Nov. 5, 1902, to the late Margaret Salisbury Boardman. He entered the insurance business with Balfour-Guthrie, later was with the Aetna Insurance Co., and in 1900, in partnership with his late brother, George Chauncey Boardman, formed Boardman Brothers & Co. which dealt in real estate and insurance.
